

## **Buy American Act Compliance**

ASI Global Partitions has been manufacturing toilet partitions since 1961 and is well qualified to supply partitions for any project in any venue.

We certify that all of our partitions are manufactured in the United States, thereby qualifying them under the Buy America Act and in compliance with 49 U.S.C. 5323 (J) part 661-BUY AMERICA REQUIREMENTS.

The only variance that we claim would be for select hardware items. These are not able to be sourced domestically and would be cost prohibitive if they were.

Sincerely,

Kyle Larson

Director Sales and Marketing

ASI Global Partitions
